25X1 -2 -Comment. Prior to mid-January 1953, the Flak Kaserne was occupied by all the elements of the 76th Arty Brig (US) of the XXIX Gds Mtz Rifie Corps as previously. As a brigade of this type is believed to have a total strength of 1,600 to 1,700, the strength estimate in peragraph 1 appears too high, whereas the figure given in paragraph 2 appears much too low. The 30 to 40 soldiers wearing black-bordered black epaulets possibly belong to a signal unit of the GOFG, which, in early May 1952, had been transferred to Merseburg from the Ruinenberg Kaserne in Potsdam. 25X1
